The Grants Officer
The Council for Tobacco Research-USA, Inc.
900 3rd Avenue
New York City, NY 10022

To Whom it May Concern:

Could I please receive information on the procedure which one must utilize to apply for grant support from your foundation. I am involved in research on mechanisms of brain aging as well as viral infections of the nervous system, which seem to be areas that you have supported in the past. Would you please send me the appropriate application forms and/or other information.

Best personal regards,

H.V. Vinters

H.V. Vinters, M.D.
Asst. Prof. of Pathology
